

Combining innovative designs and traditional values, Incatext has been manufacturing screening and seating products for over thirty years...

It's an interesting time at Incatext; the development of unique products, updated literature and a website overhaul is going to make 2017 very exciting...

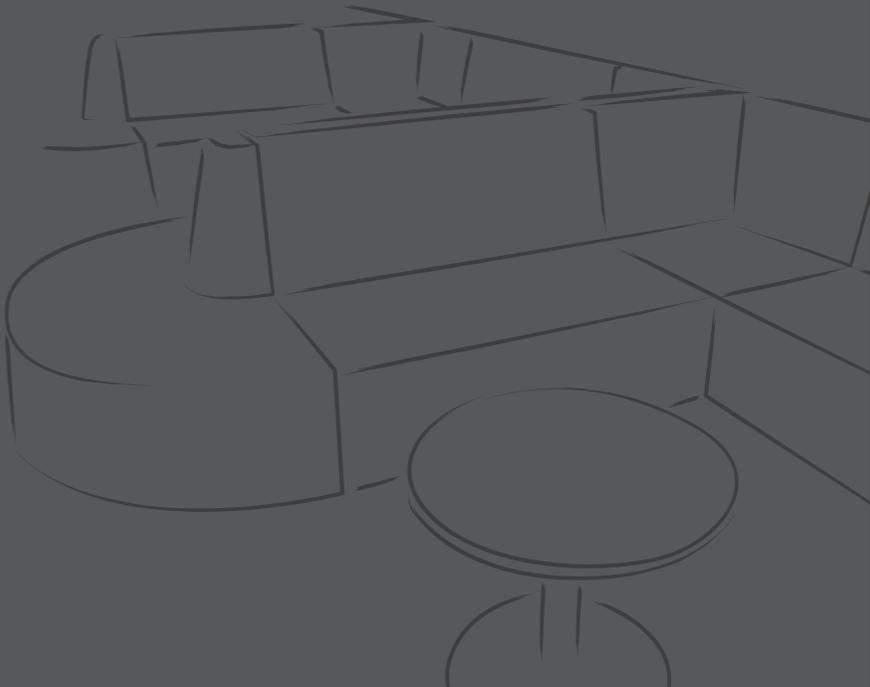

With all this going on in the background, we wanted to keep you in the loop on all things current, so we have put together a taster of all our best selling products and most new exciting ranges!

Hope you enjoy...

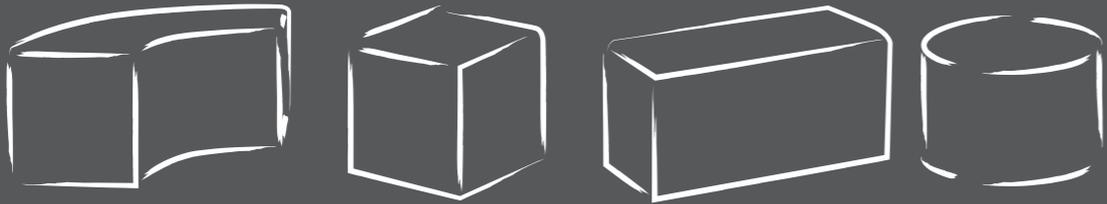

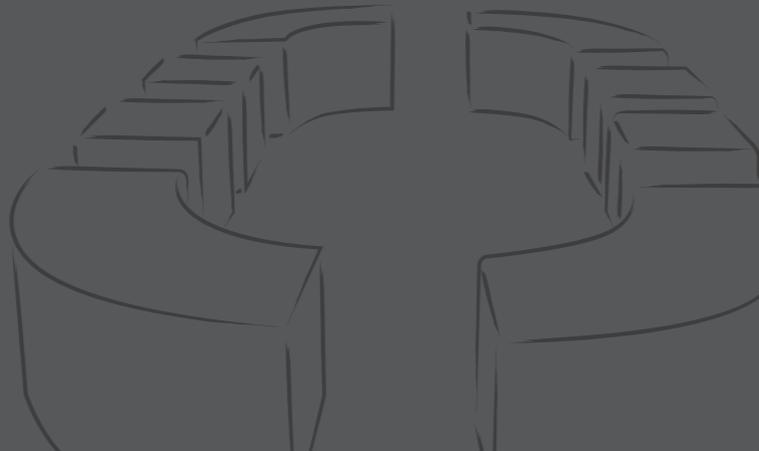

Ison provides flexibility for breakout/reception spaces with a versatile collection of 14 multifunctional units. Designed to be used as either singles or combined together to generate a unique configuration, Ison provides an unparalleled level of comfort with its simple yet crisp design.

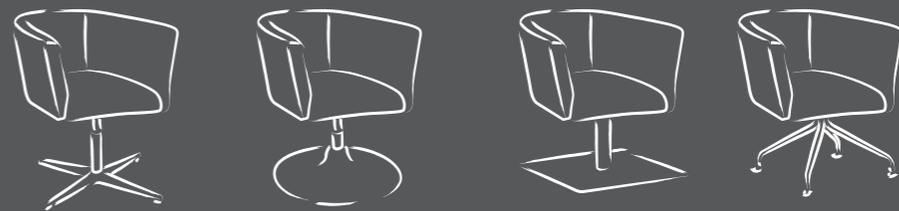

SHAPES

Incorporating a number of ideas under one umbrella, "Shapes" allows for inspiration and interaction within breakout areas by promoting flexibility and cohesion

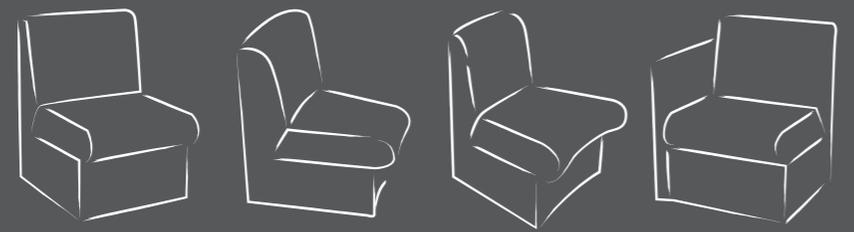

AXIS

Axis modernises the traditional tub chair design with a variety of contemporary base options that add a touch of class

Breaking the mould, Medley creates a twist on an all too familiar design with its sleek curves and offers extensive versatility with its uniquely designed modular units

Our CT Tub has become an exceptionally popular option for any soft seating scenario, smooth curves generate an aesthetically pleasing design whilst the use of thick high density foam guarantees user comfort.

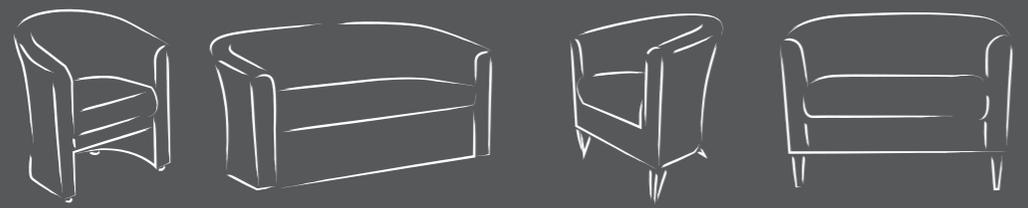

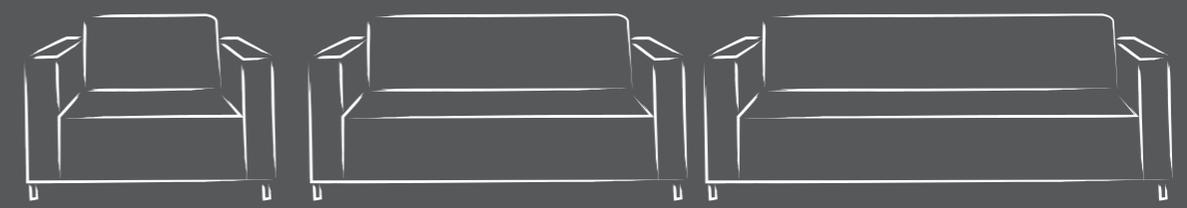

Zing's subtle curves provide soft and stylish appearance whilst providing a comfortable solution for all users.

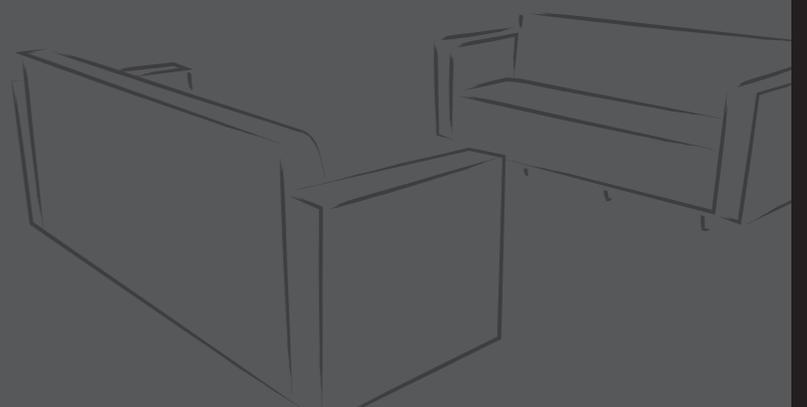

New for 2017, Flash brings an exciting option to our soft seating range. Offering both standard & armed versions that are compatible with 6 base options to create an eye catching unique solution...

Orion, a timeless tub chair design with thick generous padding and elegant curves that will enhance any space

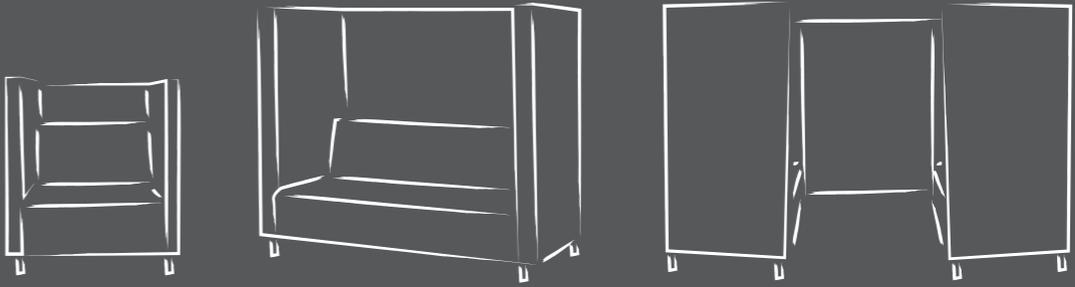

Beacon removes complications by providing a simple, clean design that enhances breakout/reception spaces, inviting you to enjoy the unrivalled levels of comfort

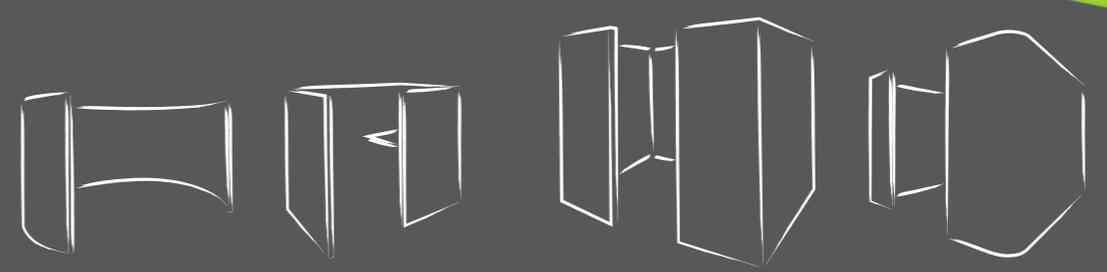

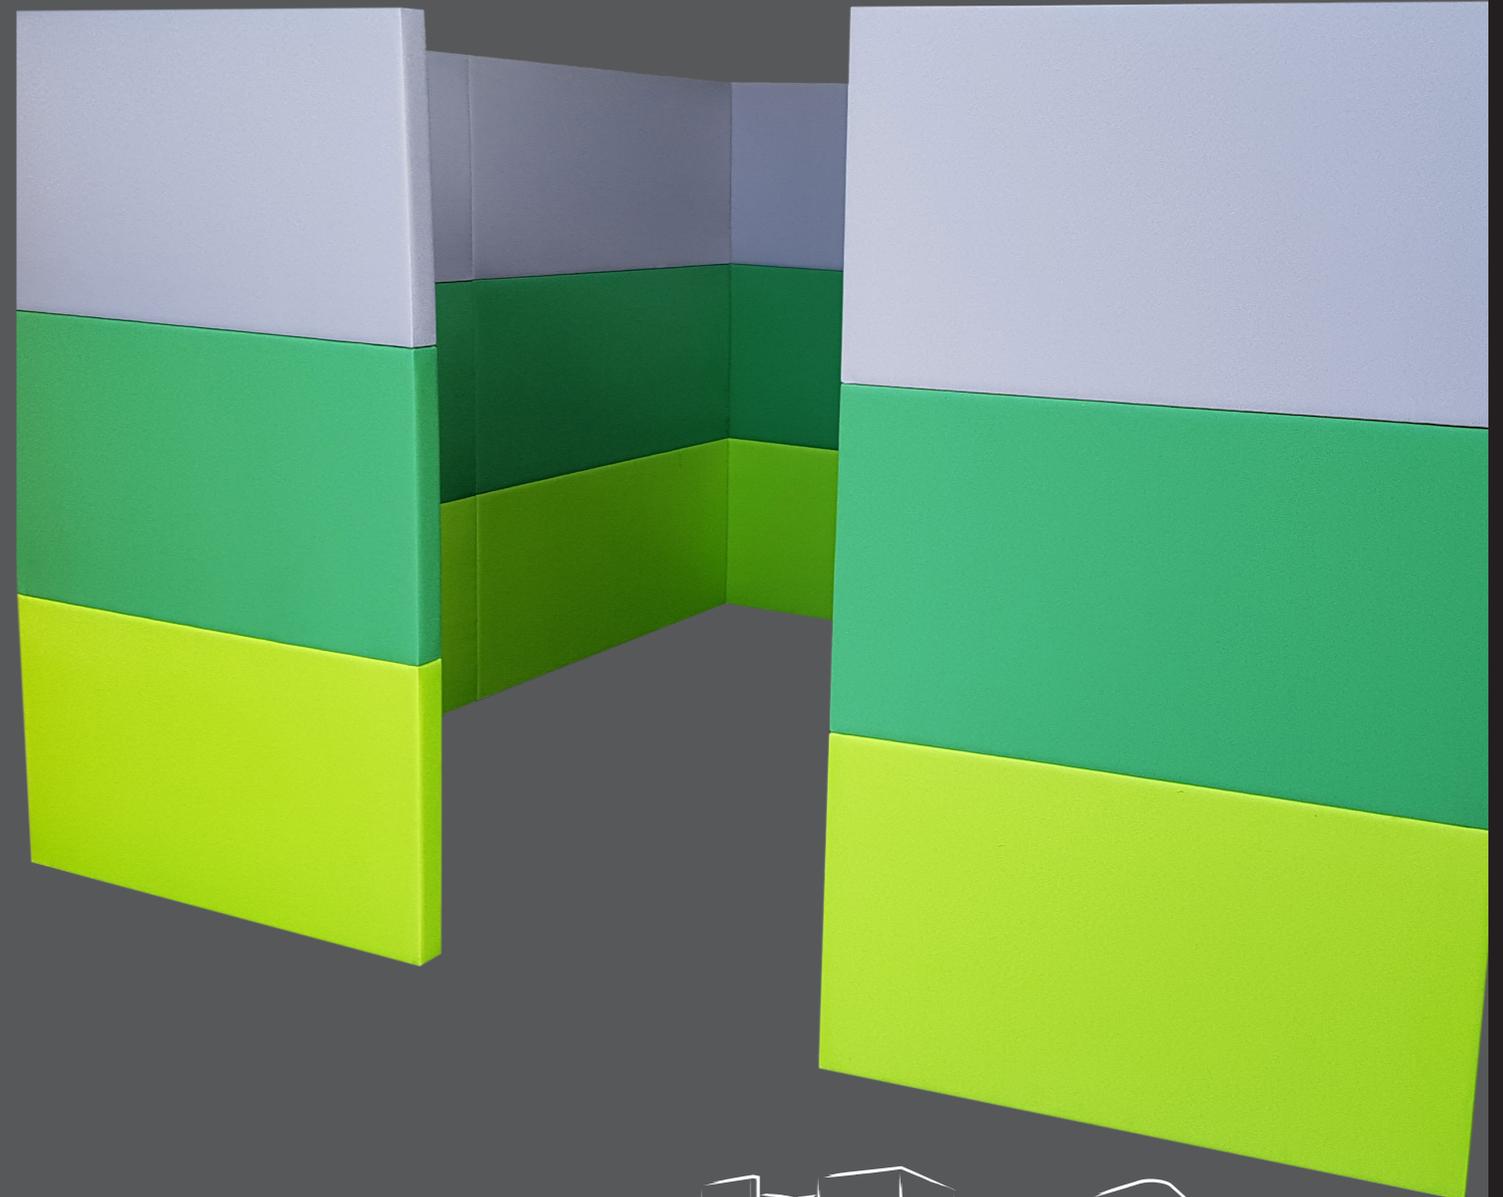

'Rift' provides a unique twist to the standard stool. Splayed legs, curvature to the seat and a lightweight construction catch your eye, not forgetting that they stack, who said stools have to be boring...

Our answer to the modern habitat, removing the need for fixed partitioning or traditional pods. Connect allows you to truly interact with peers in a comfortable acoustic environment

A hand crafted solution, meeting the demands of the evolving office. Fusion provides a softer feel, with an all fabric finish, acoustic core and the flexibility to fit any specification

Ergonomical, Economical, Environmental.  
Kinetic provides the solution to an affordable,  
environmentally friendly task chair with a  
multitude of options that meet all ergonomic  
requirements

Setting the 'Tone' in functions and aesthetics. Tone represents the modern style of mesh seating whilst ensuring user comfort with a variety of controls and features.

Trinity provides an exceptional ergonomic experience, utilising a free float mechanism that allows for synchronised movement between the chair and the individual.

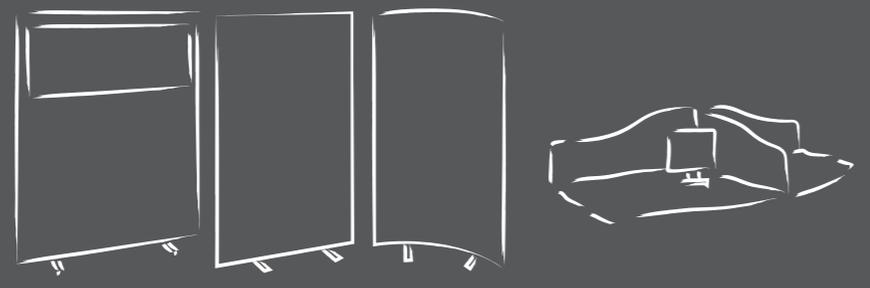

Beech framed wooden stacking chairs provide a softer, natural option to traditional hard surfaces

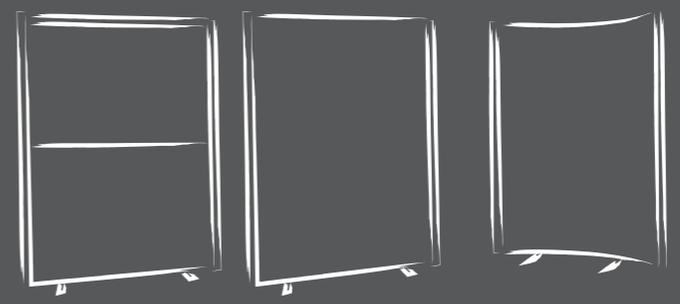

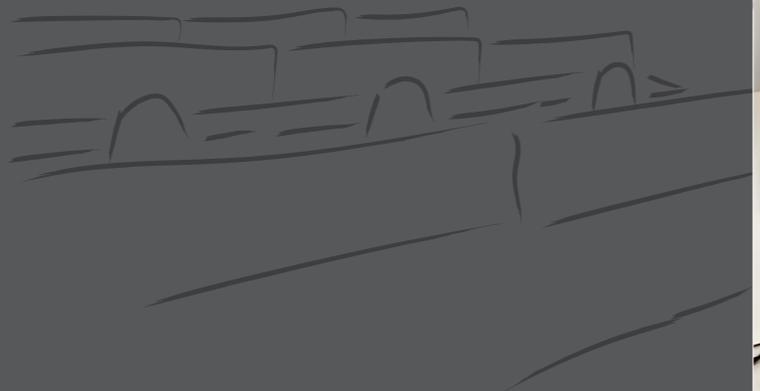

Play combines comfort & style to provide the ideal solution for any meeting or conference requirement

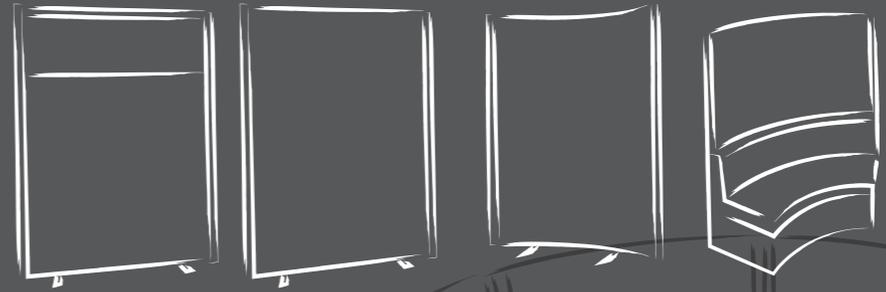

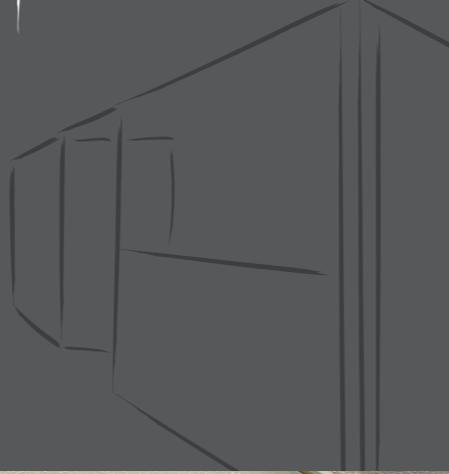

Entry level screening the right way!  
Dominator offers an economical  
screening solution with the  
versatility of a premium screen range

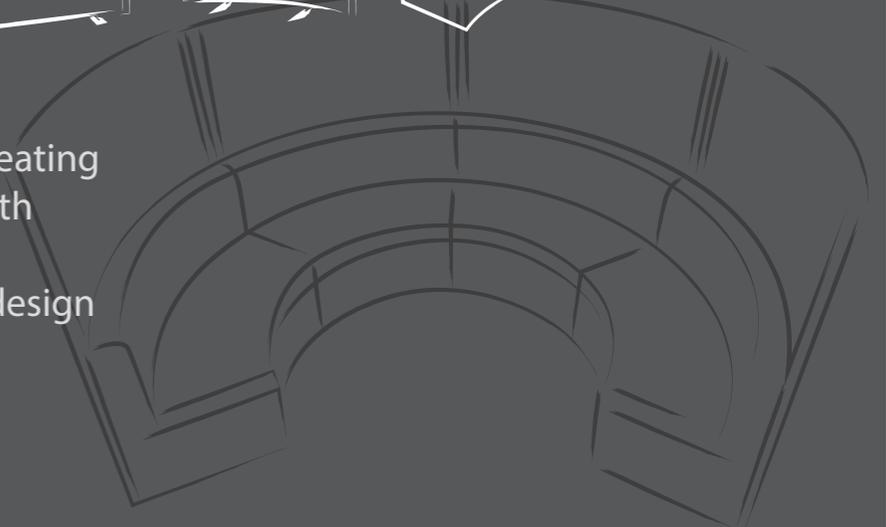

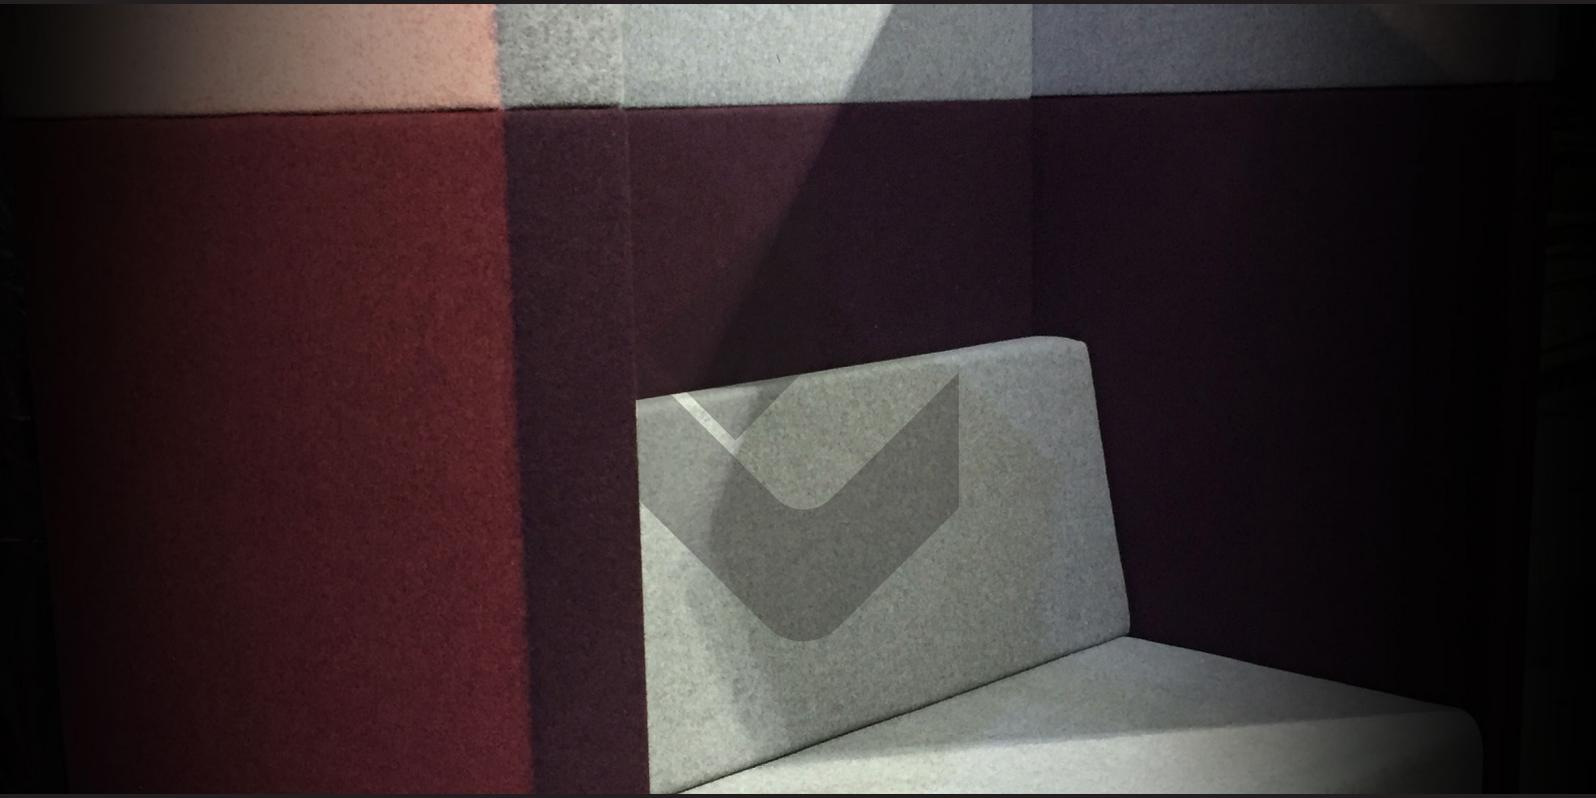

A unique systems screen, with secure  
rigid linking, the 5000 series creates a  
long-lasting solution for the office and  
industrial sectors

Creating flexible divisions in the work space is a difficult task, 7000 provides a solution, allowing a truly adaptable option that removes the need for fixed partitioning

Our contemporary screen and seating solution, with contrasting smooth curves and straight edges, Inca, provides a unique yet timeless design
