Inca Range

Floor and Desk Top Screens

A choice of Anodised or Powder coat paint finishes are available and completed with either a silver PVC or fabric top trim.

1 foot and 2 height adjustable glides are supplied per screen unless ordered individually.

A dual sided integral accessory rail can be ordered to allow screen hung accessories, helping to keep a clear desk and a tidy work environment.

Stylish and simplistic, the Inca range provides a modern cost effective range of screens with many practical benefits.

The addition of tool bars can be used along with accessories for keeping desks clear and allowing uncluttered space.

The curvaceous lines and aluminium profile bring an elegant look and offer the versatility to suit every office.

Desk top screens are available with either a straight, wave, curve or radius end and with a choice of colour finishes.

Numerous bracket options are available to suit almost every desk.

Acrylic Screens Desk Top Screens

Allowing precious light, yet still dividing space, the Acrylic screen is the solution of choice for the office of the future.

With a plethora of colours available to match corporate colours or simply matching a chair colour, the acrylic screens can create an atmosphere conducive to a productive environment.

7000 Range

Floor Standing and High Level Screens

The 7000 range screens feature a choice of radiused or straight screens with optional integral glazing sections.

Fabric finished, with a variety of heights, the 7000 range screens are constructed using fire-resistant foam and are available with built in wire management systems. These carry power, data and telecoms cables safely out of harms way at floor or desk height.

The internal foam acts as a sound insulator for a busy office environment. The substantial build quality of this range makes it suitable for defining office areas, creating receptions and dividing work spaces.

With doorways, solid or part glazed and glazed screens with integral blinds and numerous ways of connecting and securely fixing them, the 7000 range is perfect for creating an entire office.

7000 Range Pods

With the addition of modular seating, flexible, versatile break-out and meeting areas can be created. A 'room within a room' area for groups to meet formally and still sustain a level of privacy or simply 'hang out'.

5000 Range

Floor and Desk Top Screens

A choice of Anodised or Powder coat paint finishes are available and the screen is completed with a fabric top trim.

1 foot and 2 height adjustable glides are supplied per screen unless ordered individually.

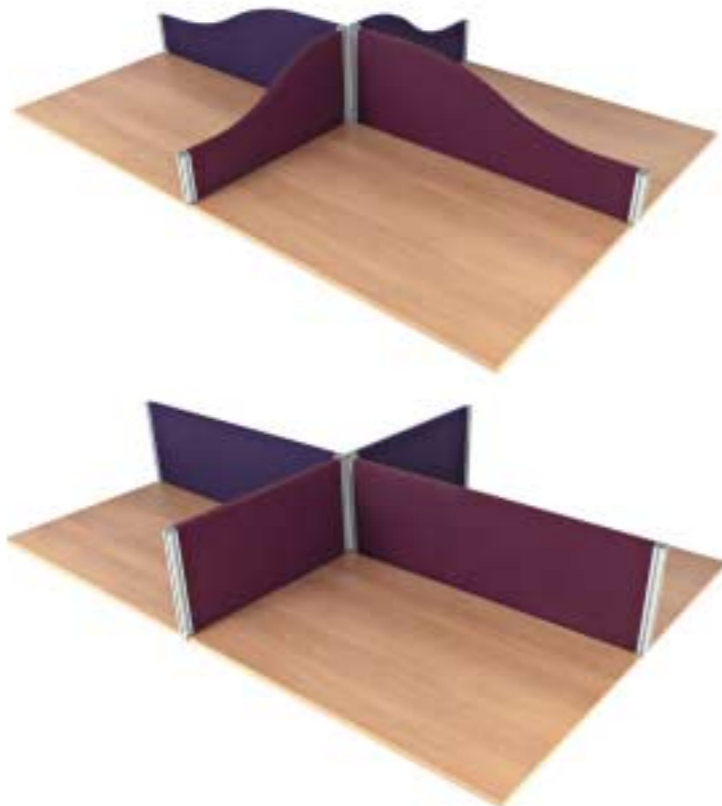

Easy installation of this stylish, yet cost effective range of screens is just one of the many features of the 5000 range.

This system provides the perfect answer for a flexible, productive office space. One where practicality and good looks blend to create a comfortable working environment.

Robust metal frame construction lends the 5000 range of screens to any number of applications from single to multiple layouts such as workstations, telesales booths and reception areas.

Desk top screens are available with either a straight, wave, curve or radius end and with a choice of colour finishes.

Numerous bracket options are available to suit almost every desk.

Dominator Range

Floor and Desk Top Screens

A choice of PVC or Fabric trim is available along with 3 and 4 way linking strips.

2 feet are supplied on free-standing screens and 1 foot and 2 height adjustable glides on linking screens.

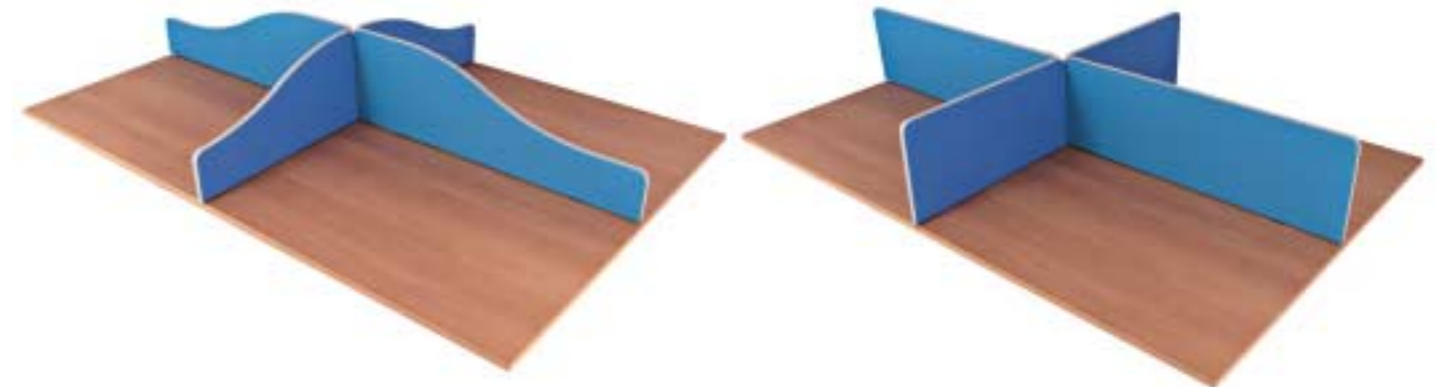

With the Dominator Range small budgets do not require a sacrifice in quality.

This system constantly delivers rugged long lasting style from a single work station to an entire office suite.

All Dominator screens feature a durable PVC trim or

a hand finished fabric trim to all edges, combined with the option of flexible linking strips allowing the individual screens to be joined to create work station layouts.

The Dominator range provides an economic solution to many office areas.

Desk top screens are available with either a straight, wave, curve or radius end and with a choice of trim finishes. Numerous bracket options are available to suit almost every desk.
